

The project aims are

- 1) to create a Joint Digitized Archive of observational data which will include
 - the full glass collection of Astronomical observatory of the I.Franko Lviv National University,
 - partial glass collections of Astronomical Observatory of the Taras Shevchenko Kyiv National University, Mykolaiv Astronomical Observatory, and Crimean Astrophysical Observatory,
 - the digitized journal of observations for glass collections of Astronomical Observatory of the I.I. Mechnikov Odessa National University;

- 2) to systematize the archive of observations of the Institute of Astronomy of the V.N. Karazin Kharkiv National University (including journals of observations) and to begin the digitization of glass collections,

- 3) to work out a specific UkrVO software for the image processing (Main Astronomical Observatory NASU altogether with the Kharkiv National University of RadioElectronics),

- 4) to develop UkrVO site (Main Astronomical Observatory NASU with Mykolaiv Astronomical Observatory),

- 5) to conduct some organizational works to apply UkrVO for IVOA membership.
